

Develop Link

We Can Get It Done Together

Site Objective:

Develop Link is a place where developers can come together and help one another on projects.

Developers from all around the world can upload their work and get feedback or assistance on issues they are having trouble with.

Target Audience:

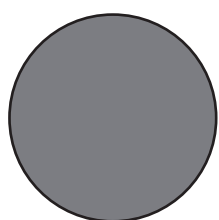

Develop Link is for Web, Mobile, and Gaming Developers. The site offers different forums for each developing focus as well as more specified areas; such as coding and design. Because of the content of some sites, Develop Link will only be available to developers over the age of 18.

Features:

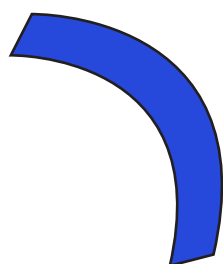

- Get feed back from different people from different views and cultures
- Get assistance in with different areas of your project
- Feel great about helping others
- It's FREE!!

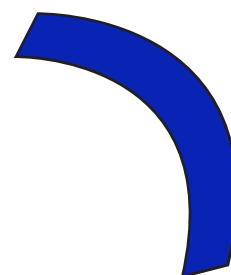

The logo design for Develop Link is a web icon with a chain in the middle. The design is to represent the connection between the developers through the internet.
